

# Alexis Raulin–Foissac

*PhD student in Physics in the Institute of light and matter*

30 rue Armand  
69100 Villeurbanne

☎ 06.47.41.16.56

✉ alexis@raulinfoissac.fr

24 years

## Education

- 2022–2023 **Physics aggregation**, rank 16
- 2020–2024 **Master's degree in Physics (Complex Systems)**, École Normale Supérieure de Lyon
- 2018–2020 **Classes préparatoires aux grandes écoles**, Chaptal Paris  
*MPSI then MP\**

## Skills

- Programming** Advanced level in **Python** and intermediate level in **C++**
- LaTeX** Advanced level: Beamer, articles and posters
- Inkscape** Intermediate level
- French** Native language
- English** C1 level validated by the Cambridge Advanced Exam

## Experiences

- 2024–Ongoing **Internship then PhD in the ILM**, (*Institute of light and matter*), under the supervision of Alexandre Nicolas  
Development of a new model for pedestrian crowds dynamics and in particular their anticipation.
- 2023–2024 **Supervision of practical physics work and physics oral**, School group *Institution des Chartreux*
- May–July 2022 **Internship in the IRPHE**, (*Non-Equilibrium Phenomena Research Institute*), under the supervision of Gautier Verhille and Sylvain Joubaud  
*Study of the sillage in fibrous network*
- 2021–2022 **Participation in the French Physicist Tournament**, with the ENS Lyon team  
*We finished second in France*
- June–July 2021 **Internship in the CEMES**, (*Center for Materials Elaboration and Structural Studies*), under the supervision of Julien Lam  
*Numerical simulations of interatomic interactions using machine-learning. Contribution to an article: A. K. A. Kandy et al.: Phys. Rev. B **107**, 174106 (2023)*
- 2019–2021 **Several numerical projects**, *Tidal coefficients prediction with machine-learning, board game AI, shoal of fish simulations, 2D Navier-Stokes solver*

## Hobbies

- Sport** Gym, Basketball, Skateboard, climbing
- Teaching** Lessons in physics, maths, and informatics.
- Games** Magic the gathering, Dungeons & Dragons
